Let's go for Monday at 1 as we have the TX Env Trade Fair next Tuesday and Wednesday.
I sent a meeting to you. Please forward as needed.
At this time, we will be focusing on PM10.
Thanks for the quick response!

Daphne,
Welcome to Exceptional Events.
For PM work, you will be working with Josh Madden of my staff. For Ozone work, you will be working with Suzy Apodaca of my staff.

We have the following times available next week:
Monday: 1-2 pm or 2-3 pm cdt
Tuesday: 1-2 pm or 3-4 pm
Wednesday: 9-10 am or 3-4 pm edt

Let me know if I need to find more times. I will check with our attorneys, once we have a time, to get one to join us.

Fran

Subject: Technical discussion of PM10 Exceptional Event Demonstration process

Fran,

Our staff in the Air Modeling and Data Analysis (AMDA) section at TCEQ have taken over preparing PM exceptional event demonstrations, which were previously prepared by the Monitoring Division. With this transition, we have a few questions we would like to discuss with you or your staff.

In particular, we would like to set up a phone call to have a technical discussion about PM10 concentrations on 12/23/20 (El Paso), 1/16/21 (Houston and Corpus Christi), and 6/21/21, 12/6/21, and 2/16/22 (El Paso).

We have been approved to have a technical, non-policy discussion about these days. Some of our attorneys may listen in as they are coming up to speed on the topic of PM exceptional events.

Could you suggest a date and time that works for your folks to sit down with us (virtually) for an hour?

Thanks in advance as I am sure you are as busy as we are these days!

Daphne
